

I look forward to continuing to work with HUD to improve its oversight of public housing authorities. We cannot allow the local and Federal mismanagement that jeopardized living conditions in Cairo to be repeated in any other community.

TRIBUTE TO JUDY DESHARNAIS

Ms. HEITKAMP. Mr. President, I want to recognize a Federal employee I have had the privilege of working with for the past 5 and a half years, Judy DesHarnais, deputy for programs and project management with the St. Paul District of the U.S. Army Corps of Engineers. Quite simply put, she is one of the finest and most dedicated public servants I have had the opportunity to work with in my time in the Senate.

Judy joined the district in 1985 as one of the first female engineers. In 2001, she was promoted to be the district's and the Corps' first female deputy district engineer for programs and project management. Throughout her time with the St. Paul District, Judy has stood out as an individual who could tackle complex, sensitive water resource issues. With top leadership in the district changing every 3 years, Judy has been the one steady hand that has remained constant, guiding the district through preparation and response to historic floods to helping communities secure permanent flood protection.

To community leaders in North Dakota, Judy is a trusted public servant and an important partner. She has been on the frontlines with us on so many flood fights, helping to coordinate emergency response measures to protect families and businesses. She has also led efforts to help communities get critical flood protection projects that have saved lives and prevented more than a billion dollars in property damage. No matter what the challenge, Judy has always been able to meet or exceed it, and the positive impact of her work can be seen across the State in Grand Forks, Wahpeton, Devils Lake, Minot, and so many other communities.

Judy's contributions to the Corps of Engineers are numerous, but one that will always be recognized is her efforts to make the agency truly responsive to the needs of the communities it serves. After a distinguished career in public service that has spanned more than 30 years, I want to thank Judy for her service to the Corps of Engineers and the State of North Dakota. She will be greatly missed, remembered for her professionalism, and honored for the positive change she brought to the Corps, and I wish her all the best in her retirement.

TRIBUTE TO LENNIS "RED" ARNDT

• Ms. KLOBUCHAR. Mr. President, today I wish to recognize Red Arndt for his many years of service to the Lewis & Clark Regional Water System, as well as his lifetime commitment to bringing safe and reliable water to the rural corners of this country.

Born Lennis Arndt, but nicknamed "Red," he started working in 1989 as the public utilities director in Luverne, MN. Shortly after beginning his new position, Red heard about a proposal to bring water from the Missouri River in South Dakota to the surrounding States. Although it was a major undertaking with more people doubting the idea than supporting it, Red saw the potential and recommended to the mayor and city council that Luverne join the project as one of the first members of the corporation that would later become the Lewis & Clark Regional Water System.
